Pierre, SD 57501-5070

Dear PUC,

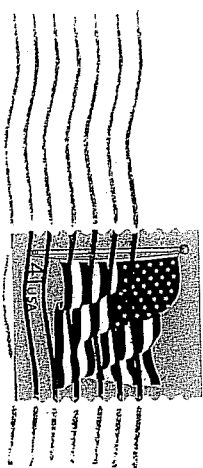

As a BDM user that relies on this water source for both personal and livestock use, we are concerned about the prospect of a crude oil pipeline made of extremely thin walls and is very high pressured.

Since this will be the aquifer that supplies our water source, we urge you to re-route this line to a better suited area. The entire northeast portion of South Dakota that uses this aquifer is depending on the Public Utilities Commission to do the right thing and move the proposed route of the Trans Canada Pipeline.

We appreciate your time and consideration of this request.

Sincerely,

Scott & Jo Bush
Britton, SD 57430
